Testimonial for performance during the Novelis-project in Lüdenscheid, Germany

Dear Mr. Klavon,

Now that our common project has been finalized, we truly want to complement you and your team on the work performed.

We confirm the highly professional handling of the dismantling, packing and planning of the transport of the complete Equipment of the Novelis Aluminium Foil Factory, and also the outstanding information flow throughout the project.

As agreed the building has been left broom swept, neat and clean, even one month prior to the contractually agreed period.

To conclude, we thank Montage Service Klavon for the professional handling of this project and we are very happy with the final result.

We look forward to work with you again in the future.

With Kind regards,

Hilco Industrial Acquisitions bv
